

Training facilities providing long-term developmental training courses, i.e., Army Management Staff College (AMSC), Advanced Resource Management Course (ARMC) and Professional Military Comptroller School (PMCS) are not identified by competency in this appendix. See Annex B for course listings.

K001: Knowledge of planning, programming, budgeting and execution system processes, products, terminology, and guidance documents.

Budget Execution , USDA

Budget Formulation , USDA

Federal Budget Process , USDA

Financial Planning and Control Techniques , AMEC

Introduction to Financial Management , USDA

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K002: Knowledge of the generally accepted principles, standards, and theories of professional accounting.

Governmental Bookkeeping and Accounting , USDA

Practice Problems in Governmental Accounting , USDA

K003: Knowledge of appropriation and fiscal code structures.

Financial Planning and Control Techniques , AMEC

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K004: Knowledge of mathematical and statistical applications.

Basic Management Statistics , AMEC

Basic Statistics , USDA

Designing and Analyzing Statistical Experiments , AMEC

Economic Analysis for Decision Making , AMEC

Intermediate Statistics , USDA

Program Evaluation Techniques , USDA

Regression Analysis , AMEC

Statistics for Management , USDA

K005: Knowledge of office automation applications.

Assessing the Reliability of Computer-Generated Data , USAAA

Basic Agency Software Training , USAAA

Data Base Management Systems , AMEC

K006: Knowledge of management principles and practices.

Advanced Management Analysis , USDA

Elements of Management Analysis , USDA

Introduction to Management Analysis , USDA

Organization Planning , AMEC

Planning and Conducting Management Studies , AMEC

K007: Knowledge of complex/large-scale management improvement study design parameters, data collection processes, data analysis/evaluation techniques, and study management procedures.

Advanced Management Analysis , USDA

Elements of Management Analysis , USDA

Organization Planning , AMEC

Planning and Conducting Management Studies , AMEC

K008: Knowledge of procedures and analyses common to the administration of management programs.

Advanced Management Analysis , USDA

Elements of Management Analysis , USDA

Introduction to Management Analysis , USDA

Organizational Performance Measurement , AMEC

Organization Planning , AMEC

Planning and Conducting Management Studies , AMEC

Productivity Measurement and Enhancement Methods , AMEC

White Collar Productivity , AMEC

K009: Knowledge of work flow and work process analysis techniques and interpretation of data.

Administrative Systems Analysis and Design , AMEC

Defense Work Methods and Standards , AMEC

Defense Work Measurement Standard Time Data , AMEC

Work Planning and Control Systems , AMEC

K010: Knowledge of work measurement/management engineering concepts, procedures and techniques.

Defense Work Measurement Standard Time Data , AMEC

Defense Work Methods and Standards , AMEC

Introduction to Management Analysis , USDA

Work Planning and Control Systems , AMEC

K011: Knowledge of organizational analysis techniques and procedures.

Introduction to Management Analysis , USDA

Organization Planning , AMEC

Organizational Study and Design , USDA

Planning, Programming, Budgeting and Execution System , Finance School

K012: Knowledge of performance effectiveness concepts and techniques.

Fundamentals of Cost Analysis , ALMC

Introduction to Management Analysis , USDA

Measuring Efficiency in Government Services , USDA

Productivity Measurement and Enhancement Methods , AMEC

K013: Knowledge of employee involvement concepts and techniques.

Human Behavior in Organizations , AMEC

Productivity Measurement and Enhancement Methods , AMEC

Quality Circle Facilitators , AMEC

K014: Knowledge of acquisition plan and performance work statement development, options for contractual instruments, costing procedures for in-house bids, and surveillance techniques for quality assurance plans as pertains to the Commercial Activities (A6) program.

Contracting Officer's Representative , ALMC

Contractor Performance Measurement , DSMC

Cost/Schedule Controls System Criteria , AFIT

K015: Knowledge of concepts, principles, and procedures for performing economic analyses.

Economic Analysis Applications , AMEC

Economic Analysis for Decision Making , AMEC

Economic Analysis for Managers , AMEC

Economic Analysis Fundamentals , AMEC

Fundamentals of Cost Analysis , ALMC

K016: Knowledge of productivity measurement concepts and measurement system design techniques.

Productivity Measurement and Enhancement Methods , AMEC

K018: Knowledge of organizational development process and techniques.

Organization Planning , AMEC

Organizational Study and Design , USDA

Quality Circle Facilitators , AMEC

Work Planning and Control Systems , AMEC

K019: Knowledge of the Federal budget process and national policies affecting programs and financial management.

Budget Formulation , USDA

Federal Budget Process , USDA

Fiscal Law , JAG School

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K020: Knowledge of how individual programs support organizational goals and mission.

Fundamentals of Cost Analysis , ALMC

Planning and Conducting Management Studies , AMEC

K021: Knowledge of program planning.

Fundamentals of Cost Analysis , ALMC

Introduction to Program Evaluation , USDA

K022: Knowledge of the interrelationship between resource requirements and programing in support of mission requirements.

Fundamentals of Cost Analysis , ALMC

Installation Management Course , ALMC

Resource Management Introductory , Finance School

K023: Knowledge of alternative strategies for resourcing programs.

Contracting Officer's Representative , ALMC

Economic Analysis for Managers , AMEC

K024: Knowledge of procedures and analyses common to the administration of management programs.

Economic Analysis for Managers , AMEC

Internal Management Control , AMEC

Productivity Measurement and Enhancement Methods , AMEC

K025: Knowledge of evaluation factors and techniques for assessing program accomplishments in performance reviews or review and analysis programs.

Introduction to Program Evaluation , USDA

Planning and Conducting Management Studies , AMEC

Productivity Measurement and Enhancement Methods , AMEC

K026: Knowledge of validation/cost techniques.

Fundamentals of Cost Analysis , ALMC

Planning and Conducting Management Studies , AMEC

K027: Knowledge of execution issues, procedures and data.

Budget Execution , USDA

Planning, Programming, Budgeting and Execution System , Finance School

K029: Knowledge of methodologies and techniques to balance and prioritize programs within total resource availability.

Economic Analysis Applications , AMEC

Economic Analysis for Decision Making , AMEC

Economic Analysis for Managers , AMEC

Economic Analysis Fundamentals , AMEC

Fundamentals of Cost Analysis , ALMC

K030: Knowledge of basic contracting procedures, including acquisition planning and types of contracts.

Contracting Officer's Representative , ALMC

Contractor Performance Measurement , DSMC

Cost/Schedule Controls System Criteria , AFIT

Planning, Programming, Budgeting and Execution System , Finance School

K031: Knowledge of resource management constraints, goals, laws, policies, precedents, procedures, regulations, and rulings to advise the Commander and supervise in a balanced and integrated manner subordinate functional managers engaged in resource management specializations.

Economic Analysis for Managers , AMEC

K032: Knowledge of management analysis functions, including program goals and the impact of targeted savings on manpower and funding authorizations.

Army Installation Management , ALMC

Introduction to Management Analysis , USDA

Intermediate Management Analysis , USDA

K033: Knowledge of finance and accounting operations and systems, including an understanding of principles, practices, and theories, and associated techniques.

Planning, Programing, Budgeting, and Execution System , Finance School

K034: Knowledge of budget operation and analysis systems.

Resource Management Budget Course , Finance School

K035: Knowledge of program analysis and evaluation.

Program Evaluation Techniques , USDA

Project Management , USDA

K036: Knowledge of manpower management and organizational functions to include requirement determination, allocation, utilization, documentation, and reporting processes.

Manpower and Force Management , ALMC

K037: Knowledge of the principles and techniques of cost analysis including research methods, economic analysis, and statistical procedures.

Fundamentals of Cost Analysis , ALMC

Cost Estimating for Engineers , ALMC

K040: Knowledge of procedures used to record, classify, and report information on the financial position and operations of Army organizational components.

Cost Accounting in Government Operations , USDA

Governmental Bookkeeping and Accounting , USDA

Practice Problems in Government Accounting , USDA

Resource Management Introductory , Finance School

K041: Knowledge of analytical methods and accounting procedures used to interpret financial reports and statements.

Army Management Accounting and Analysis , Finance School

Basic Management Statistics , AMEC

Cost Accounting in Government Operations , USDA

Economic Analysis for Decision Making , AMEC

K042: Knowledge of the practices and techniques of professional governmental accounting.

Cost Accounting in Government Operations , USDA

Army Management Accounting and Analysis , Finance School

Governmental Bookkeeping and Accounting , USDA

Practice Problems in Government Accounting , USDA

K043: Knowledge of the trends and current developments in government accounting and financial management.

Army Management Accounting and Analysis , Finance School

Cost Accounting in Government Operations , USDA

Governmental Bookkeeping and Accounting , USDA

Practice Problems in Government Accounting , USDA

K044: Knowledge of nonfinancial systems and controls as they interact with financial systems and the related internal control environment.

Internal Management Control , AMEC

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Introductory , Finance School

K045: Knowledge of when and how to use technical references.

Cost Accounting in Government Operations , USDA

Fiscal Law , JAG School

K046: Knowledge of DA accounting policies and reporting procedures.

Army Management Accounting and Analysis , Finance School

Resource Management Introductory , Finance School

K047: Knowledge of the fund distribution process from Congress to the installation level.

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K048: Knowledge of the Army internal control program and the requirements of the Federal Managers' Financial Integrity Act as it pertains to accounting functions.

Army Management Control Process , USDAC

Fiscal Law , JAG School

K049: Knowledge of general ledger accounting and the control/subsidiary account relationships and reconciliation techniques.

Governmental Bookkeeping and Accounting , USDA

Military Accounting , Finance School

Practice Problems in Government Accounting , USDA

K050: Knowledge of automated and manual accounting systems, including source documents, systems flows, systems interfaces, and related internal controls.

Introduction to ADP , USDA

Military Accounting , Finance School

K051: Knowledge of the debt and cash management programs.

Commercial Accounts Administration , Finance School

K052: Knowledge of the expenditure process.

Military Accounting , Finance School

K053: Knowledge of procedures for processing direct and reimbursable programs.

Governmental Bookkeeping and Accounting , USDA

Military Accounting , Finance School

K054: Knowledge of cost accounting principles/procedures and allocating costs to specific job orders or processes.

Cost Accounting in Government Operations , USDA

Governmental Bookkeeping and Accounting , USDA

Military Accounting , Finance School

K057: Knowledge of the procedures fiscal year end close out.

Governmental Bookkeeping and Accounting , OPM

Military Accounting , Finance School

K060: Knowledge of the legislative process and actions necessary to implement and modify guidance pertaining to finance and accounting policy.

Fiscal Law , JAG School

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K062: Knowledge of automatic data processing concepts and computer application environments.

Automatic Data Processing for Managers , AMEC

Introduction to ADP , USDA

K065: Knowledge of logical and physical data structures.

Data Base Management Workshop , AMEC

K067: Knowledge of data analysis and data modeling.

Data Base Management Workshop , AMEC

Methods in ADP Systems Development , AMEC

K068: Knowledge of configuration management policies and procedures.

Configuration Management for Software , AMEC

Methods in ADP Systems Development , AMEC

K069: Knowledge of system/structured analysis principles and design techniques.

Methods in ADP Systems Development , AMEC

K070: Knowledge of planning, funding, and procurement processes for system software and hardware development/acquisition.

Information Resource Management , AMEC

Software Cost Estimating Course , ALMC

K072: Knowledge of concepts, principles, and procedures for performing economic analyses.

Economic Analysis Course , ALMC

Economic Analysis for Decision Making , AMEC

K073: Knowledge of manual and automated tools used in systems analysis, systems design, and systems documentation.

Methods in ADP Systems Development , AMEC

K074: Knowledge of planning and systems design methodology.

Methods in ADP Systems Development , AMEC

K075: Knowledge of accepted professional auditing practices and procedures.

Audit Management School , USAAA

Audit Supervisor School , USAAA

Basic Governmental Auditing , USDA

Intermediate Auditor School , USAAA

Introduction to Army Auditing , USAAA

K076: Knowledge of available policy,documents needed to conduct evaluations of a functional entity.

Intermediate Auditor School , USAAA

Introductions to Army Auditing , USAAA

K077: Knowledge of the Audit-By-Objectives concept and how it should be used on financial and performance audits.

Audit Management School , USAAA

Audit Supervisor School , USAAA

Intermediate Auditor School , USAAA

Senior Auditor School , USAAA

K078: Knowledge of the elements of Findings and Recommendations and how to develop and present them during all audits.

Audit Management School , USAAA

Audit Supervisor School , USAAA

Auditor-in-Charge Report Writing , USAAA

Basic Governmental Auditing , USDA

Basic Report Writing , USAAA

Intermediate Auditor School , USAAA

Introduction to Army Auditing , USAAA

Senior Auditor School , USAAA

K079: Knowledge of effective general, hardware, system application, and operating controls required for automated systems.

Advanced Audit Techniques , USAAA

Assessing the Reliability of Computer-Generated Data , USAAA

K080: Knowledge of automatic data processing hardware and software used in the audit process and how to use the hardware and software during audits.

Advanced Audit Techniques , USAAA

Assessing the Reliability of Computer-Generated Data , USAAA

Basic Agency Software Training , USAAA

K081: Knowledge of the Federal Managers' Financial Integrity Act and how it is to be applied to operations to be audited and to audits.

Audit Manager School , USAAA

Audit Supervisor School , USAAA

Introduction to Army Auditing , USAAA

Intermediate Auditor School , USAAA

Management Accountability and Control , USDA

Senior Auditor School , USAAA

K082: Knowledge of audit planning requirements and techniques used to determine milestones, staff size and necessary staff skills in accordance with generally accepted auditing standards.

Audit Management School , USAAA

Audit Supervisor School , USAAA

Senior Auditor School , USAAA

K083: Knowledge of audit planning objectives as used in developing audit programs for financial and performance audits.

Army Installation Management , ALMC

Intermediate Auditor School , USAAA

Senior Auditor School , USAAA

K084: Knowledge of the types of audit evidence and their use during financial and performance audits.

Intermediate Auditor School , USAAA

Introduction of Army Auditing , USAAA

Senior Auditor School , USAAA

K085: Knowledge of the criteria for audit evidence.

Intermediate Auditor School , USAAA

K086: Knowledge of audit techniques for evidence gathering and their use during financial and performance audits.

Intermediate Auditor School , USAAA

K087: Knowledge of entrance and exit conference techniques and how they should be used during audits.

Intermediate Auditor School , USAAA

K088: Knowledge of audit followup and resolution techniques on audit reports.

Army Installation Management , ALMC

Intermediate Auditor School , USAAA

Senior Auditor School , USAAA

K089: Knowledge of generally accepted government auditing standards for working papers.

Audit Supervisor Report Writing , USAAA

Auditor-in-Charge Report Writing , USAAA

Basic Report Writing , USAAA

Intermediate Auditor School , USAAA

Introduction to Army Auditing , USAAA

Senior Auditor School , USAAA

K090: Knowledge of audit survey principles used in developing and executing audit programs for survey during financial and performance audits.

Intermediate Auditor School , USAAA

Introduction to Army Auditing , USAAA

Senior Auditor School , USAAA

K091: Knowledge of principles used in developing and executing audit programs for survey during financial and performance audits.

Intermediate Auditor School , USAAA

Introduction to Army Auditing , USAAA

Senior Auditor School , USAAA

K092: Knowledge of audit execution procedures and their use in financial and performance audits.

Audit Supervisor School , USAAA

Audit Supervisor Report Writing , USAAA

Basic Report Writing , USAAA

Intermediate Auditor School , USAAA

Senior Auditor Course , USAAA

K093: Knowledge of audit requirements for tentative written input to the audit report process for financial and performance audits.

Audit Supervisor Course , USAAA

Audit Supervisor Report Writing , USAAA

Intermediate Auditor Course , USAAA

Basic Report Writing , USAAA

Senior Auditor Course , USAAA

K094: Knowledge of potential monetary benefit measuring techniques and reporting requirements for all types of audits.

Audit Supervisor Course , USAAA

Intermediate Auditor Course , USAAA

Senior Auditor Course , USAAA

K095: Knowledge of audit research, longrange/strategicplanning, and the audit scheduling process and how it is accomplished and used at all organization levels.

Audit Management Course , USAAA

Audit Supervisor Course , USAAA

K096: Knowledge of the criteria used in selecting and scheduling multilocation audits involving financial and performance issues, as well as the multilocation audit process, reporting and potential.

Audit Management Course , USAAA

Audit Supervisor Course , USAAA

K099: Knowledge of audit compliance procedures.

Audit Management Course , USAAA

Audit Supervisor Course , USAAA

Intermediate Auditor Course , USAAA

K100: Knowledge of the Federal budget process and national policies affecting programs and financial management.

Budget Formulation , USDA

Federal Budget Process , USDA

Fiscal Law , JAG School

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K101: Knowledge of budget formulation and associated documents.

Budget Formulation , USDA

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K102: Knowledge of budget execution phases.

Budget Execution , USDA

Planning, Programming, Budgeting and Execution System , Finance School

K103: Knowledge of budget analysis techniques.

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K104: Knowledge of legislative limitations, ceilings, floors, targets, and special interest items.

Planning, Programming, Budgeting and Execution System , Finance School

Resource Management Budget , Finance School

K105: Knowledge of interrelationships between and uses of budget programs, appropriations, and funds.

Planning, Programming, Budgeting and Execution System , Finance School

K106: Knowledge of interrelationships between financial and manpower programs.

Planning, Programming, Budgeting and Execution System , Finance School

K107: Knowledge of the interrelationship between resource requirements and budgeting in support of mission accomplishment.

Planning, Programming, Budgeting and Execution System , Finance School

K108: Knowledge of alternative methods, sources and timing required to develop budget formulation and execution strategies.

Budget Execution , USDA

Budget Formulation , USDA

Planning, Programming, Budgeting and Execution System , Finance School

K110: Knowledge of the concept of single year appropriations and their characteristics, uses, applications and structure.

Planning, Programming, Budgeting and Execution System , Finance School

K111: Knowledge of the concept of multiyear appropriations and their characteristics, uses, applications, and structure.

Planning, Programming, Budgeting and Execution System , Finance School

K112: Knowledge of the concept of revolving funds and their characteristics, uses, applications and structure.

Planning, Programming, Budgeting and Execution System , Finance School

K113: Knowledge of concepts, principles, and procedures for performing cost analyses and estimates.

Advanced Cost and Economic Analysis , AFIT

Advanced Quantitative Methods for Cost Analysis , AFIT

Cost Estimating for Engineers , ALMC

Cost/Schedule Control Systems Criteria , AFIT

Economic Analysis Applications , AMEC

Economic Analysis for Decision Making , AMEC

Economic Analysis for Managers , AMEC

Economic Analysis Fundamentals , AMEC

Federal Budget Process , USDA

Financial Planning and Control Techniques , AMEC

Fundamentals of Cost Analysis , ALMC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

Operations Research/Systems Analysis Military Applications I and II , ALMC

Operations Research/Systems Analysis Special Topics Seminar , ALMC

Planning, Programming, Budgeting and Execution System , Finance School

Principles of Contract Pricing , AFIT

Project Planning and Control Techniques , AMEC

K114: Knowledge of operations research techniques.

Decision Risk Analysis , ALMC

Economic Analysis for Managers , AMEC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Operations Research/Systems Analysis Military Applications I and II , ALMC

Operations Research/Systems Analysis Special Topics Seminar , ALMC

K115: Knowledge of concepts, principles, and procedures for performing economic analyses.

Advanced Cost and Economic Analysis , AFIT

Cost Estimating for Engineers , ALMC

Economic Analysis Applications , AMEC

Economic Analysis for Decision Making , AMEC

Economic Analysis for Managers , AMEC

Economic Analysis Fundamentals , AMEC

Federal Budget Process , USDA

Financial Planning and Control Techniques , AMEC

Fundamentals of Cost Analysis , AMEC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

Operations Research/Systems Analysis Military Applications I and II , ALMC

Operations Research/Systems Analysis Special Topics Seminar , ALMC

Planning, Programming, Budgeting and Execution System , Finance School

K116: Knowledge of the policies and procedures governing the Cost and Economic Analysis Program.

Advanced Cost and Economic Analysis , AFIT

Cost Estimating for Engineers , ALMC

Economic Analysis Applications , AMEC

Economic Analysis for Decision Making , AMEC

Economic Analysis for Managers , AMEC

Economic Analysis Fundamentals , AMEC

Fundamentals of Cost Analysis , ALMC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

Operations Research/Systems Analysis Military Applications I and II , ALMC

Operations Research/Systems Analysis Special Topics Seminar , ALMC

Principles of Contract Pricing , AFIT

K117: Knowledge of materiel acquisition and life cycle management policies and procedures contained in applicable documents.

Configuration Management , AMEC

Defense Manufacturing Management , DSMC

Fundamentals of Cost Analysis , ALMC

Fundamentals of Systems Acquisition Management , DSMC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

Research and Development Orientation , ALMC

Systems Acquisition Funds Management , DSMC

K118: Knowledge of weapon system life cycle cost estimates.

Advanced Cost and Economic Analysis , AFIT

Defense Manufacturing Management , DSMC

Fundamentals of Cost Analysis , ALMC

Fundamentals of Systems Acquisition Management , DSMC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

K119: Knowledge of acquisition strategies.

Contractor Performance Measurement , DSMC

Cost/Schedule Control Systems Criteria , AFIT

Defense Manufacturing Management , DSMC

Fundamentals of Cost Analysis , ALMC

Fundamentals of Systems Acquisition Management , DSMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Research and Development Orientation , ALMC

Systems Acquisition Funds Management , DSMC

K120: Knowledge of concepts and principles required to evaluate requests for proposals, contractor proposals, and contracts.

Advanced Quantitative Methods for Cost Analysis , AFIT

Cost Estimating for Engineers , ALMC

Defense Manufacturing Management , DSMC

Fundamentals of Cost Analysis , ALMC

Fundamentals of Systems Acquisition Management , DSMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Principles of Contract Pricing , AFIT

Research and Development Orientation , ALMC

Systems Acquisition Funds Management , DSMC

K121: Knowledge of concepts and principles of contractor cost management and government monitoring procedures.

Contractor Performance Measurement , DSMC

Fundamentals of Cost Analysis , ALMC

Cost/Schedule Control Systems Criteria , AFIT

Defense Manufacturing Management , DSMC

Fundamentals of Systems Acquisition Management , DSMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Principles of Contract Pricing , AFIT

Project Planning and Control Techniques , AMEC

Research and Development Orientation , ALMC

Systems Acquisition Funds Management , DSMC

K122: Knowledge of policies and procedures needed to assure the implementation and maintenance of Cost/Schedule Control Systems Criteria.

Cost/Schedule Control Systems Criteria , AFIT

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Project Planning and Control Techniques , AMEC

Project Planning and Control Workshop , AMEC

K123: Knowledge of policies, proedures, and data sources required to develop, analyze, and integrate Congressional and DoD reports.

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

K124: Knowledge of materiel system logistic support concepts.

Fundamentals of Cost Analysis , ALMC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

K125: Knowledge of Information Systems life cycle cost analysis.

Fundamentals of Cost Analysis , ALMC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

K126: Knowledge of Information Systems acquisition and life cycle management policies and procedures as contained in DoDD 7920.1, DoDI 7920.2, and DA LOIs.

Fundamentals of Cost Analysis , ALMC

Fundamentals of Systems Acquisition Management , DSMC

Information Resource Management , AMEC

Introduction to Life Cycle Costing , AFIT

Operations Research/Systems Analysis Continuing Education Program , ALMC

Systems Acquisition Funds Management , DSMC

K127: Knowledge of ADP hardware and software.

Configuration Management , AMEC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

K128: Knowledge of force structure cost estimating.

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Operations Research/Systems Analysis Military Applications I and II , ALMC

Operations Research/Systems Analysis Special Topics Seminar , ALMC

K129: Knowledge of concepts required to estimate cost and manpower requirements of institutional training activities.

Cost Estimating for Engineers , ALMC

Federal Budget Process , USDA

Financial Planning and Control Techniques , AMEC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Planning, Programming, Budgeting and Execution System , Finance School

Project Planning and Control Techniques , AMEC

K130: Knowledge of concepts and principles required to estimate costs of base support operations.

Cost Estimating for Engineers , ALMC

Economic Analysis for Managers , AMEC

Federal Budget Process , USDA

Financial Planning and Control Techniques , AMEC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Planning, Programming, Budgeting and Execution System , Finance School

Project Planning and Control Workshop , AMEC

K131: Knowledge of contract costing used in preparing IGCEs/IGEs.

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

K132: Knowledge of policies, procedures, and techniques for validation and tracking of cost estimates and data.

Contractor Performance Measurement , DSMC

Cost Estimating for Engineers , ALMC

Cost/Schedule Control Systems Criteria , AFIT

Federal Budget Process , USDA

Financial Planning and Control Techniques , AMEC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

Planning, Programming, Budgeting and Execution System , Finance School

Project Planning and Control Techniques , AMEC

Systems Acquisition Funds Management , DSMC

K133: Knowledge of cost analysis cost research contract administration policies and procedures for acquiring and evaluating contractor services.

Contracting Officers' Representative Course , ALMC

Contractor Performance Measurement , DSMC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC

K134: Knowledge of cost research and evaluation methods for the design, conduct, analysis, and documentation of cost and economic analysis issues.

Advanced Cost and Economic Analysis , AFIT

Advanced Quantitative Methods for Cost Analysis , AFIT

Economic Analysis for Decision Making , AMEC

Economic Analysis for Managers , AMEC

Fundamentals of Cost Analysis , ALMC

Operations Research/Systems Analysis Continuing Education Program , ALMC
